

## Chem-feed Systems

*Standard Systems All The Way To Intrinsically Safe*

### Chem-feed Products

All system piping, pumps and accessories are appropriate for the chemicals in use and the design is based on our 20+ years of experience in the field. One of the unique aspects of our company is our flexibility. We will recommend a specific pump and manufacturer for a job, but can alter the pump supplied according to customer preference.

### Features & Benefits:

- **Unitary construction (minimal footprint)**
- **All components expertly installed and tested prior to shipment**
- **Minimal installation time**
- **Simple start up**
- **Single source responsibility**
- **Single or multiple pump systems, pre-plumbed and ready for use**
- **Control and monitoring systems fully integrated and tested**
